February 1, 2006

To Whom it May Concern:

In 2003, WirelessUSA was awarded contracts totaling approximately \$80,000 for Osage County Communications. Their knowledgeable and professional service team designed, installed and trained our personnel on the RescueSTAR w/2 Sentinel 9-1-1 and continues to maintain it today. Since the installation of the RescueSTAR, we've expanded our system and maintenance contracts with WirelessUSA. We are very satisfied with their continued professional services and feel that they go above and beyond for their customers. We feel that we made the right choice in WirelessUSA.

Sincerely,

Andrea L. Rice
911 Director
